

# Aluminium Door Handles

# Contour

*Contour* – a premium line of robust stainless steel handles with a sleek, contemporary design, engineered to exceed the highest durability and security standards.

Seamlessly compatible with a wide range of systems and opening types, Contour offers a truly universal solution – uncompromising in both quality and performance.

# Material

*Contour* handles are manufactured from AISI 304 stainless steel, renowned for its outstanding durability and exceptional corrosion resistance. The solid stainless-steel construction not only enhances protection against break-ins but is also low maintenance: a pure, hygienic material that withstands cleaning agents with ease.

# Design

*Contour* – a handle line with an exclusive design that fits perfectly into both modern and contemporary homes. Its timeless style and superior quality not only enhance the value of any property but also add a touch of refined luxury – all while maintaining everyday functionality.

# Safety

*Contour* handles contribute to the security of your home. Most models are certified with SKG\*\* or even SKG\*\*\* safety ratings and are designed for use with Reynaers RC2-class certified systems – ensuring exceptionally high resistance against burglary attempts.

# Colours

*Contour* handles are available exclusively with a stainless steel finish.

# Touch

Style and quality are combined in *Touch*, our trendsetting range of design hardware. *Touch* is sleek, elegant and slim hardware, suitable for windows, doors, sliding and folding doors. The sleek design fits perfectly into modern homes, but also provides a stylish contrast in renovations.

# Material and finish

The *Touch* handles and cup handles are produced with carefully selected, high-end materials. Most handles can be powder coated in over 400 RAL colours, in a matt, glossy or coatex surface finish or anodised in various tones. This way, we ensure a perfect match with the profiles of the window.

# Design

# Horizon

Looking for new horizons, that's the ultimate goal of just about everyone who starts building or renovating. The *Horizon* handles merge, almost invisibly, into a window. As a result, they fit perfectly with all possible architectural styles

# Material

*Horizon* is built from molded or air pressed aluminium. By using pure material the handle range has a wider variety of finishes.

# Design

With a sleek design *Horizon* handles make the perfect combination for any window or door system.

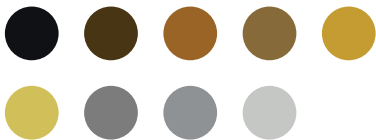

# Installation

The *Horizon* range has been a consistent companion for Reynaers profiles throughout our years. This allround, low entry handle range has a solution for every opening type, whether it is as simple as a window or as specific as a panic door.

# Purity

The *Purity* handle series is designed for those who seek exceptional design and quality. These handles combine next-generation materials, advanced mechanical performance, and distinctive Italian style created by designer Leo De Carlo.

# Material

*Purity* handles are manufactured from a completely new material called PURA – fully recyclable, 100% eco-friendly, non-corrosive, and hypoallergenic. The unique BIOV, or “Bioecologic Ion Overlay,” process is based on the vacuum deposition of gaseous metal ions. As a result, these handles are highly resistant to wear, perfectly suited for use in harsh environmental conditions, and can even provide antibacterial properties.

# Design

The *Purity* design features a minimalist style that blends seamlessly with contemporary interior trends.

# Installation

*Purity* handles feature a unique, next-generation fastening mechanism. It fits directly into the handle spindle and locks automatically, ensuring an even stronger connection and allowing the handle to always return to its ideal position.

# Shield

The *Shield* handle range stands out with its robust and reliable design. These handles are produced in a natural, non-polished anodised finish that ensures long-lasting durability. The products in this line comply with security classes RC2 and RC3, making them a popular choice wherever safety is the highest priority.

# Material and Design

*Shield* is the most secure and robust handle range, designed to withstand burglary attempts. *Shield* has been awarded two SKG stars in most assessments, and in certain specific areas even three security stars.

## Colour

*Shield* handles are available exclusively in a natural, non-polished anodised finish.
